SEW-Eurodrive

MOVITRAC 31C040-503-4-00 is a 4.0 kW (5.4 HP) industrial variable frequency drive designed for 380-500V 3-phase input and asynchronous motor control.

Official operational manuals and documentation can be accessed directly via the SEW-Eurodrive Operating Instructions PDF and the SEW-Eurodrive Protos/Manual PDF. [1, 2, 3]

Technical Specifications

Power Rating: 4.0 kW

Input Voltage: 3 x 380-500 VAC (50-60 Hz), 8.8 A

Output Voltage: 3 x 0-U_{max} (0-400 Hz), 9.6 A (6.6 kVA)

Brake Chopper: Included (4-quadrant operation, "-4-" designation)

Version: Standard ("-00")
